

IPPC Webinar FAO and COLEACP partnership: New training tools for pest risk analysis and export certification

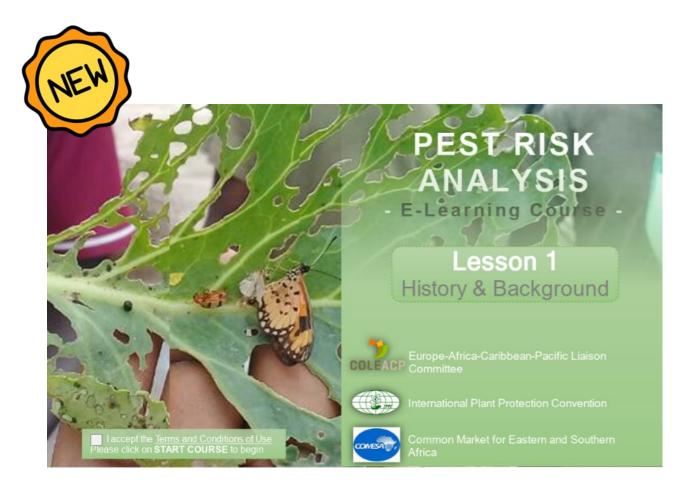

elearning courses

- Interactive self training materials covering relevant areas of plant protection
- Targeting NPPOs staff and relevant stakeholders (exporters, etc.)
- Pest Risk Analysis and Export
 Certification

E-learning courses

Pest Risk Analysis

- Drafting by a working group of experts agreed upon by the IPPC Implementation and Capacity Development Committee (IC)from: Argentina, Canada, New Zealand, United Kingdom, and the United States.

Export Certification

- Drafting by a working group of experts agreed upon by the IC. Experts are from: Argentina, Brazil, Canada, Egypt, and New Zealand.

Peer reviewed by COLEACP, submitted to the IPPC online comment system (OCS) and revised by the respective working groups.

Pest Risk Analysis

Seven (7) interactive modules detailing all stages of pest risk analysis:

The process of evaluating biological and scientific evidence to determine whether an organism is a pest, whether it should be regulated, and the strength of any phytosanitary measures to be taken against it (ISPM 5).

Initiation
Pest risk assessment
Pest risk management

Pest Risk Analysis

Intermediate level

Module 1: History and Background

Module 2: Overview

Module 3: Case study

Pest Risk Analysis

Advanced level

Module 4: Initiation pest risk analysis

Module 5: Pest risk assessment

Module 6: Pest risk management

Module 7: Case studies

De Marja van der Straten, NVWA Plant Protection Service, Bugwood.org - http://www.forestryimages.org/browse/detail.cfm?imgnum=5432149, CC BY 3.0 us, https://commons.wikimedia.org/w/index.php?curid=22440495

Four modules subdivided in 19 sequences going over a step by step thorough review of the export certification process

Module 1 : plant and plant product providers

Module 2 : exporters

Module 3 : export inspectors

Module 4 : export supervisors

Module 1: plants and plants product providers

-Sequence B: Plant pests and their control

-Sequence C: Collaboration among plant and plant part providers/NPPO

-Sequence D: Traceability

-Sequence E: Transmission of information to workers

Module 2 : Exporters

-Sequence F : Collaboration (re)exporters/NPPO

-Sequence G: Phytosanitary (re)export certificate

Module 3 : Export inspectors

- -Sequence H : Collaboration NPPO/private stakeholders
- -Sequence I: Measures for certifications
- -Sequence J: Preparing the phytosanitary (re)export certificate
- -Sequence K: Issuing the phytosanitary certificate
- -Sequence L: Non compliances

Module 4 : Export supervisors

-Sequence M : The human resources

-Sequence N: Collaboration and communication NPPO/private stakeholders

-Sequence O: Organizing the certification

-Sequence P Pa: Organizing preparation and issuance of phytosanitary (re)export certificate

-Sequence Q: International collaboration

-Sequence R: Management of non-compliances and review of the system

- Funding of elearning courses: 11th European Development Fund (EDF) via the COMESA Secretariat
- Originally developed for training in the 21 African member countries of COMESA the courses will also be globally available

- The course content was developed by worldwide recognized experts
- Although available for self training the courses will be tutored For COMESA participants in collaboration with COLEACP
- Upon completion, the trainees get recognition through a course certificate

- COLEACP translation of IPPC guides into French
- Involvment in Phytosanitary Capacity Evaluation (Sierra Leone)
- Alignment with United Nations (UN) Sustainable development goals

Thank you
