COMMISSION ON PHYTOSANITARY MEASURES

EIGHTEENTH SESSION

LIST OF IMPLEMENTATION AND CAPACITY DEVELOPMENT TOPICS

AGENDA ITEM 9.2.1

(*Prepared by the IPPC Secretariat*)

Background

[1] This document outlines the changes to the *List of Implementation and Capacity Development Topics* (ICD-LOT) recommended by the Implementation and Capacity Development Committee (IC) in 2023.

[2] The *List of Implementation and Capacity Development Topics* (ICD-LOT) database can be viewed on the International Phytosanitary Portal (IPP)[1].

[3] Please refer to the reports[2] of the IC in May 2023 and November 2023 meetings for all topic modifications that have been incorporated into the ICD-LOT database.

IC May 2023 meeting

[4] The IC recommended to CPM-18 (2024) that the following topics **be added** to the ICD LOT:

- Guide for participants in the meetings of the CPM of the IPPC (2023-001): The IC considered that revising the existing Manual of good practices (2015) is a high priority and established an IC Team to initiate this work.

- Fusarium TR4 training courses (2023-002): The IC noted that these activities were identified as a high priority during CPM-17 (2023) and that funding would be covered by the project "FAO support to COMESA trade facilitation programme" (GCP/INT/387/COM).

IC November 2023 meeting

[5] The IC recommended to CPM-18 (2024) that the following topics **be removed** from the ICD LOT database because the work has been completed:

- Emergency preparedness – A guide for developing contingency plans for outbreaks of quarantine pests[3] (2019-012)
- Guide to regulation of wood packaging material – Understanding the phytosanitary requirements for the movement of wood packaging material in international trade[4] (2017-043)
- E-commerce – A guide to managing the pest risk posed by goods ordered online and distributed through postal and courier pathways[5] (2017-039)

[3] Emergency preparedness guide: https://doi.org/10.4060/cc4820en

[4] Guide to regulation of wood packaging material: https://doi.org/10.4060/cc5059en

[5] E-commerce guide: https://doi.org/10.4060/cc8209en

[6] The IC recommended to CPM-18 (2024) that the following topics **be removed** from the ICD LOT and requested that the secretariat issue a call for national and regional guidance on surveillance for this pest, to be submitted as contributed resources:

- Surveillance of *Xylella fastidiosa*, guide (2018-0037) and

- Inspection of consignments for *Xylella fastidiosa* at points of entry (2018-038).

[7] The IC recommended to CPM-18 (2024) that the following topic **be removed** from the ICD LOT and requested that the secretariat request that the submitter provide this material as a contributed resource:

- Managing non-compliant treated consignments (2018-027).

Recommendations to CPM

[8] The CPM is invited to:

(1) *approve* the *List of Implementation and Capacity Development Topics*, with the above adjustments.
