IPPC Plant Health Campus - A key milestone in plant health capacity development

- Developed with support from the European Union
- Convenient one-stop portal to all IPPC e-learning courses, and IPPC guides and other training materials
- Free, certified e-learning courses
- Developed with technical support from global plant health experts
- Downloadable materials, available anytime, anywhere!
- Better knowledge = better compliance and **stronger biosecurity**

The screenshot displays the IPPC Plant Health Campus website. At the top is a blue header with the FAO logo and the text 'Food and Agriculture Organization of the United Nations'. Below this is a navigation bar with links: Home, About the Academy, What we do, Courses, Certification, Webinars, Repository, Partners, Help and support, and a login/register section. The main content area features the IPPC logo and the text 'IPPC PLANT HEALTH CAMPUS Growing the skills of the global plant health community'. A grid of menu items includes: Home, International Plant Protection Convention, NPPO management, Communication & partnerships, Pest risk analysis, Surveillance and pest status, Market access, Import & export, Inspection & audit, Emergency response, and Pest pathways. On the left, a 'Welcome to the IPPC Plant Health Campus' section describes the portal's purpose and target audience. On the right, a 'Featured Video' section shows a video titled 'Standard Setting Procedure - IPPC' with a play button icon. Below the video is a 'RESOURCES' section.

- COMING UP - IPPC Plant Health Campus in Spanish

The screenshot shows the homepage of the 'Campus de la CIPV sur la Santé Végétale' (IPPC Plant Health Campus). The header features the FAO logo and the text 'Organisation des Nations Unies pour l'alimentation et l'agriculture'. Below the header is a navigation bar with links: 'À propos de l'Académie', 'Nos actions', 'Cours' (highlighted), 'Certification', 'Webinaires', 'Répertoire', 'Partenaires', 'Aide et Assistance technique', and 'Non connecté. (Connexion) S'inscrire'. The main banner area has the title 'CAMPUS DE LA CIPV SUR LA SANTÉ VÉGÉTALE' and the subtitle 'Améliorer les compétences de la communauté mondiale de la santé végétale'. Below the banner is a grid of menu items: 'Accueil', 'Convention internationale pour la protection des végétaux', 'Gestion des ONPV', 'Communication et partenariats', 'Analyse du risque phytosanitaire', 'Surveillance et situation d'un organisme nuisible', 'Accès aux marchés', 'Importation et exportation', 'Inspection et audit', 'Intervention d'urgence', and 'Filières d'entrée des organismes nuisibles'. The main content area is divided into two columns. The left column has the heading 'Bienvenue sur le Campus de la CIPV sur la santé végétale!' followed by a paragraph: 'Le Campus de la CIPV sur la santé végétale est votre portail d'accès aux cours de formation en ligne, guides et informations techniques sur les principaux systèmes phytosanitaires.' and another paragraph: 'Son contenu, qui vise à renforcer les capacités phytosanitaires nationales, est destiné aux organisations nationales de la protection des végétaux (ONPV), à leur personnel, aux facilitateurs d'évaluations des capacités phytosanitaires (ECP), aux partenaires de la santé végétale, aux parties'. The right column has a 'Vidéo' section with a thumbnail for 'Standard Setting Proced...' and a caption 'Procédure d'élaboration de normes - CIPV', and a 'Ressources' section with a link to 'Journée internationale de la santé'. A QR code with the French flag is located at the bottom left of the screenshot.

E-learning courses currently available

Pest Risk Analysis (Intermediate level)

Estimated duration : 5h00

The intermediate level of this course consists of three modules. Each module contains summary text along with some simple questions to measure your mastery of the subject. At the end of the intermediate level, a short test will be offered to you. Your results will determine your access to the advanced level.

First, we will review the international context of plant protection and the rights and responsibilities of importing and exporting countries. We highlight the roles of the International Plant Protection Convention, national and regional plant protection organisations, the WTO Agreement on SPS Measures, and international standard-setting.

Next, we focus on pest risk analysis (PRA) in more detail: its role and purpose; the concepts of risk, probability and impacts; information gathering and how to deal with uncertainty; and the importance of risk communication and transparency.

Finally, we will look at two specific illustrations: a pathway-initiated PRA and a pest-initiated PRA.

WORKSHOP

Certified Learning

- Upon completing a course, learners receive a digital badge or certificate recognizing their achievement and acquired knowledge
- Learners are encouraged to share their digital badges on LinkedIn and other platforms, helping to build a visible, global community of plant health professionals

**2025
IPPC
REGIONAL
WORKSHOP**

Designed to support both self-paced learning and structured training programmes

- **For plant health professionals:**
Complete courses anytime, anywhere — at your own pace
- **For national plant protection organizations (NPPOs):**
Easily integrate certified courses into staff training and capacity development programmes
- **For universities and academic institutions:**
Incorporate high-quality IPPC content into plant health and phytosanitary curricula
- Webinar delivered on 11 June to promote the campus.
 - Recording can be seen [here](#)
