## IPPC Plant Health Campus - A key milestone in plant health capacity development

- Developed with support from the European Union
- Convenient one-stop portal to all IPPC e-learning courses, and IPPC guides and other training materials
- Free, certified e-learning courses
- Developed with technical support from global plant health experts
- Downloadable materials, available anytime, anywhere!
- Better knowledge = better compliance and **stronger biosecurity**

The screenshot shows the homepage of the IPPC Plant Health Campus. At the top is the FAO elearning Academy header with a search bar. Below it is a navigation menu with links like 'About the Academy', 'What we do', 'Courses', 'Certification', 'Webinars', 'Repository', 'Partners', 'Help and support', and a login/register prompt. The main banner features the FAO and IPPC logos, the title 'IPPC PLANT HEALTH CAMPUS', and the tagline 'Growing the skills of the global plant health community'. A secondary navigation bar lists various topics: Home, International Plant Protection Convention, NPPO management, Communication & partnerships, Pest risk analysis, Surveillance and pest status, Market access, Import & export, Inspection & audit, Emergency response, and Pest pathways. The content area includes a 'Welcome to the IPPC Plant Health Campus' section with a description of the portal's purpose and a list of target audiences. To the right is a 'Featured Video' section showing a video titled 'Standard Setting Procedure - IPPC'. At the bottom right is a 'RESOURCES' section.

## IPPC Plant Health Campus portal in other languages

- The IPPC Plant Health Campus and all e-learning courses available in French
- COMING UP - IPPC Plant Health Campus in Spanish

The screenshot shows the French version of the IPPC Plant Health Campus portal. The header features the FAO logo and the text 'Organisation des Nations Unies pour l'alimentation et l'agriculture'. Below this is the title 'Académie Numérique de la FAO'. A navigation bar includes links such as 'À propos de l'Académie', 'Nos actions', 'Cours' (highlighted), 'Certification', 'Webinaires', 'Répertoire', 'Partenaires', 'Aide et Assistance technique', and 'Non connecté. (Connexion) S'inscrire'. The main banner reads 'CAMPUS DE LA CIPV SUR LA SANTÉ VÉGÉTALE' with the subtitle 'Améliorer les compétences de la communauté mondiale de la santé végétale'. A secondary navigation bar lists various topics like 'Convention internationale pour la protection des végétaux', 'Gestion des ONPV', 'Communication et partenariats', etc. The main content area is titled 'Bienvenue sur le Campus de la CIPV sur la santé végétale!' and describes the portal's purpose. A QR code with a French flag is visible on the left. On the right, there are sections for 'Vidéo' (featuring a video titled 'Standard Setting Process') and 'Ressources' (featuring 'Journée internationale de la santé').

## E-learning courses currently available

### Pest Risk Analysis (Intermediate level)

Estimated duration : 5h00

The intermediate level of this course consists of three modules. Each module contains summary text along with some simple questions to measure your mastery of the subject. At the end of the intermediate level, a short test will be offered to you. Your results will determine your access to the advanced level.

First, we will review the international context of plant protection and the rights and responsibilities of importing and exporting countries. We highlight the roles of the International Plant Protection Convention, national and regional plant protection organisations, the WTO Agreement on SPS Measures, and international standard-setting.

Next, we focus on pest risk analysis (PRA) in more detail: its role and purpose; the concepts of risk, probability and impacts; information gathering and how to deal with uncertainty; and the importance of risk communication and transparency.

Finally, we will look at two specific illustrations: a pathway-initiated PRA and a pest-initiated PRA.

## Certified Learning

- Upon completing a course, learners receive a digital badge or certificate recognizing their achievement and acquired knowledge
- Learners are encouraged to share their digital badges on LinkedIn and other platforms, helping to build a visible, global community of plant health professionals

**37<sup>th</sup>** Technical Consultations  
among Regional Plant Protection  
Organizations (TC-RPPO)

## Designed to support both self-paced learning and structured training programmes

- **For plant health professionals:**  
Complete courses anytime, anywhere — at your own pace
- **For national plant protection organizations (NPPOs):**  
Easily integrate certified courses into staff training and capacity development programmes
- **For universities and academic institutions:**  
Incorporate high-quality IPPC content into plant health and phytosanitary curricula
- Webinar delivered on 11 June to promote the campus.
  - Recording can be seen [here](#)
