1 General description and main categories

The IPPC Secretariat has prepared a new homepage for the International Phytosanitary Portal (IPP) website, available at www.ippc.int to share and exchange relevant information with the IPPC Community. It is divided into different areas of interest, which are highlighted in red circles and described below.

The screenshot shows the IPPC Secretariat homepage. The header includes language options (English, French, Spanish, Russian, Arabic, Chinese), a search bar, and navigation links (Home, About, News, Core Activities, Themes, Information, Resources, Countries, Calendar). The main content area is divided into several sections, each highlighted with a red circle:

- About Us:** Includes links to The Convention, IPPC Secretariat, and Contact us. It also features an **Announcements** section with dates and brief descriptions of recent events.
- IPPC News:** A section featuring a large group photo and a headline: "Harmonizing the IPPC diagnostic protocols to protect plant resource and to facilitate trade".
- Brief News:** A list of recent news items with dates and brief descriptions, such as "First annual report on the State of the World's Plants released by the Royal Botanic Gardens, Kew (UK)".
- Activities:** A section divided into three columns: Governance & Strategies, Standards & Implementation, and Integration & Support.
- Themes:** A section featuring four images with captions: Food Security, Trade Facilitation, Environment Protection, and Capacity Development.
- Information:** A section divided into four columns: Strategic Planning, Standards, Recommendations, and IPPC Projects.
- Resources:** A section divided into three columns: Statistics, Library, and Media.

The footer includes contact information, a copyright notice, and social media links (Facebook, Twitter, LinkedIn).

The **top** bar consists of 8 folders, which are visible horizontally:

About	News	Core Activities	Themes	Information	Resources	Countries	Calendar
-------	------	-----------------	--------	-------------	-----------	-----------	----------

The subfolders of each folder become visible once you hover over the relevant folder and are as follows:

In order to read all the information on the IPP, apart from Work Area dedicated to working documents for specific groups and meetings, you do not have to log in to the website. All public information is accessible for all users.

2 Extract information from the site

As data regarding International Standards for Phytosanitary Measures (ISPMs) and information uploaded by countries on the IPP regarding obligatory reporting (National Reporting Obligations, like IPPC Contact Points, pest reports and national phytosanitary legislation) are the most search for information on the IPP, below it is described how to look for that information on the new homepage.

2.1. Search for data on International Standards for Phytosanitary Measures

Hover over the folder "Core Activities" or "Information" appearing underneath the IPPC logo on the top of the screen of the homepage. Then you would be able to see subfolders: "Standards & Implementation" and "Standards" on which you need to click.

You can also access information by going to a pale green field with "Activities" in the middle of the page and:

- ◆ click on "SC- Standards Committee" underneath "Governance & Strategies" or
- ◆ click on "Standard Setting" underneath "Standards & Implementation".

You can also access information by going to a pale yellow field with "Information" in the middle of the page and click on "Adopted Standards", "Approved Specifications" or "Manual for Standard Setting".

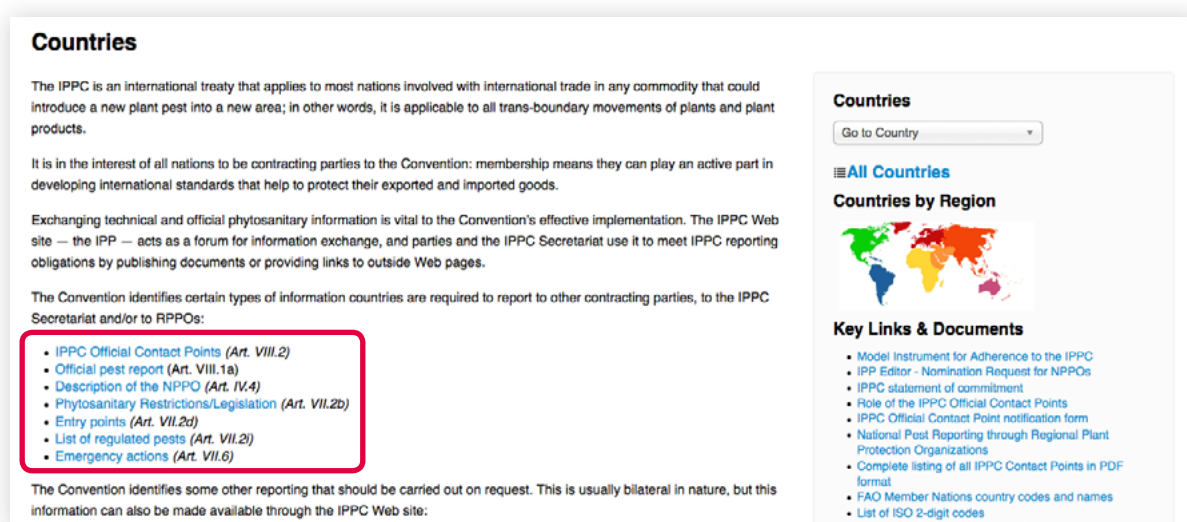

2.2. Search for data on countries reports (National Reporting Obligations)

Click on the folder “Countries” appearing underneath the IPPC logo on the top of the screen of the homepage.

Then a page with the list of National Reporting Obligations will open. To find a specific National Reporting Obligation in a summarized form for all countries which posted that information, you need to click on one of the titles listed there.

If you would like to find information on any National Reporting Obligation specific to a certain country, you need to select the name of that country from a drop down menu ("Go to country") which appears e.g. on the right hand side of the screen.

You can also find a list of countries in the folder “About” underneath “NPPOs” in a drop down menu.

Basic information on National Reporting Obligations, including all the links to the countries' reports, can be found in a folder “National Reporting Obligations” to be found on the right hand side of the screen of the IPP:

IPPC

The International Plant Protection Convention (IPPC) is an international plant health agreement that aims to protect cultivated and wild plants by preventing the introduction and spread of pests. International travel and trade are greater than ever before. As people and commodities move around the world, organisms that present risks to plants travel with them.

Organization

- ◆ The number of contracting party signatories to the Convention exceeds 182.
- ◆ Each contracting party has a National Plant Protection Organization (NPPO) and an Official IPPC contact point.
- ◆ 10 Regional Plant Protection Organizations (RPPOs) have been established to coordinate NPPOs in various regions of the world.
- ◆ IPPC liaises with relevant international organizations to help build regional and national capacities.
- ◆ The Secretariat is provided by the Food and Agriculture Organization of the United Nations (FAO-UN).
