

**International Plant Protection Convention**  
*Protecting the world's plant resources from pests*

# **IPPC HUB Application**

## **Release Notes**

*Release Version 04 January 2018*

# INDEX

1. Bug Fixes.....	3
2. Enhancements .....	3

## 1. Bug Fixes

Reference	Description
1595	Collaboration notification not correctly sent to all subscribed recipients
1587	TLS settings and SSL communication moved to load-balancer to standardize communication across clients
1583	Wrong labeling of the headers views period search in the admin console
1641	Internal email log not functioning properly
1642	Admin console headers view from/to column showing NPPO instead of country
1579	Sorting and data accuracy of global dashboard
1710	Queue Expiration notification text showing NPPO name instead of country, also npo certificate number is not included
1756	NPPO profile does not load FP list of users under certain circumstances

## 2. Enhancements

Reference	Description
1487	Certificate verification moved to backend to allow for quicker set up and troubleshooting
1584	Admin console headers views limited to default to last week and pending delivery to limit the initial traffic when opening the views
1743	Enlarge the text box of the subject text and allow for XML tags
	Admin Console traffic separated from the web service to allow for SSL connection without client certificate request. The Admin Console is now available under <a href="https://www.ephytoexchange.org/AdminConsole">https://www.ephytoexchange.org/AdminConsole</a>
