# COMMISSION ON PHYTOSANITARY MEASURES

## Twelfth Session

Incheon, Republic of Korea , 5-11 April 2017

Work plan and budget of the IPPC Secretariat for 2017

Agenda item 15.2

Prepared by the IPPC Secretariat

### *Important note*

*The CPM Bureau discussed this document in its entirety in December 2016 meeting and made the following decisions:*

1. *approved the IPPC Secretariat Work Plan and IPPC Multi-donor Trust Fund budget for 2017 (Appendix 1)*
2. *noted the IPPC Secretariat Regular programme budget for 2017 (Appendix 1)*

## I. Introduction

1. In 2014, the IPPC Secretariat Enhancement Evaluation Recommendation No. 1 stated that: **“One annual work plan and budget for the Secretariat should be developed and approved by the Bureau and it should include clear and achievable objectives, with a detailed as possible breakdown of activities, and required resources in terms of both staff and funding...”**

2. In April 2016, CPM-11 adopted and noted the IPPC Secretariat Work Plan and Budget for 2016, which is the first IPPC Secretariat work plan and budget developed according to the Enhancement evaluation and the first budget to feature numerous additions and improvements. Practice proved that well planned and more transparent work plan and budget for 2016 enabled the Secretariat to better monitor the progress of activities while making sure that costs are under control.

---

*This document is printed in limited numbers to minimize the environmental impact of FAO's processes and contribute to climate neutrality. Delegates and observers are kindly requested to bring their copies to meetings and to avoid asking for additional copies. Most FAO meeting documents are available on the Internet at [www.fao.org](http://www.fao.org)*

3. In June 2016, the CPM Bureau and Financial Committee (FC) intensively discussed the way forward on the IPPC Secretariat Work Plan and Budget for 2017. Bureau and FC proposed certain improvements to the work plan and budget format. The first improvement is to divide the “Governance and Management” pillar into two parts: “Governance and Strategy” and “Coordination and Support” for clearer division of work. The second improvement is to add all projects administered by the IPPC Secretariat in the main work plan and budget table as well as the in-kind contributions that Contracting parties provide to the IPPC Secretariat.

4. After the Bureau and FC meetings in June 2016, the IPPC Secretariat initiated a thorough process to develop the work plan and budget for 2017 which is even more transparent, comprehensive and reflective of the recommendations from the Enhancement Evaluation and inputs from the Bureau and FC. At the direction of the IPPC Secretary, a Secretariat task force on the Annual Work Plan and Budget developed this draft of the IPPC Secretariat Work Plan and Budget for 2017 for discussion and approval at the CPM Bureau and FC meeting in October 2016.

5. The Bureau and FC in October 2016 meetings discussed the 2017 Work plan and Budget in detail and proposed that a short description of each project is added as Appendix 3 to the main document, totals for each activity are added and IYPH 2020 to become more prominent – a separate point 1.2.8 under Coordination and Support sub-pillar.

## **II. Major Deliverables/Outputs**

6. The IPPC Secretariat Work Plan and Budget for 2017 fully implements the Enhancement Evaluation Recommendations, Bureau and FC suggestions and takes into account all core activities of the Secretariat, composed of 3 main pillars as shown in (Appendix 1).

### **A. Governance and Management**

7. *Governance:* The main deliverable in 2017 being supported under governance is the execution of activities for the 12th Session of the Commission on Phytosanitary Measures that will be held in the Republic of Korea, and meetings of the CPM Bureau and the Financial Committee. Main outputs include the presentation and translation of draft ISPMs for CPM-13, 2 meetings of the Standards Committee (SC) and 1 SC-7 meeting organized with outcomes processed and published, SC e-decisions processed. Furthermore, other major outputs from the pillar are expected to be organization of Capacity Development Committee (CDC), Subsidiary Body of Dispute Settlement (SBDS) and National Reporting Obligations Advisory Group (NROAG) meetings (Appendix 1).

8. *Strategy:* Strategic discussion on the IPPC topics is also embedded in the work plan through the organization and facilitation of the meeting of the Strategic Planning Group (SPG). IPPC Secretariat is also strategically positioning itself by planning its activities for the 2020-2030 period. Apart from providing facilities for the meetings, the IPPC Secretariat will be organizing the travel of participants from the least developed and developing countries to the IPPC meetings.

9. *Coordination and Support:* The IPPC Secretariat is expected to put more efforts in Communications and Advocacy through the development and implementation of a new communications work plan, organization of the IPPC workshops on NROs, awareness raising activities, implementation and maintenance of new Online Comment System (OCS), the migration of [ippc.int](http://ippc.int) under [fao.org](http://fao.org), a new Online Registration System and Secretariat SharePoint platform, updates of [phytosanitary.info](http://phytosanitary.info) and PCE tool as necessary, IPPC seminars and IPPC new or revised advocacy material, improved NRO delivery through greater participation of Contracting Parties and the introduction of an NRO quality advice system. The IPPC Secretariat will be strengthening its network by organizing 7 IPPC regional workshops with active participation of most NPPOs, and the Technical Consultations among RPPOs (TC-RPPO) meetings with active involvement of all RPPOs. Resources have also been received and allocated for the promotion of the International Year of Plant Health 2020 and ongoing resource mobilization efforts. In addition, initiation of the Third round of ISPM 15 symbol registration is also expected to be performed (Appendix 1).

*Internal Management:* IPPC Secretariat will be making certain efforts in the improvement of internal management, staff development, team building and maintenance (Appendix 1).

## **B. Standard Setting**

10. The major deliverables for the Standard Setting in 2017 are the following (Appendix 1):
- 1) *Identification and Prioritization of Topics:* Organize a call for phytosanitary treatments and process submissions; list of topics (LOT) updated in 6 languages twice a year; and make other documents and tools updated and available as needed, such as Procedure manual for standard setting, style guide, etc.
  - 2) *Drafting and Expert input:* Support for one Expert Working Group (EWG for the revision of ISPM 8 (Priority 1)); support for Technical Panels with four face-to-face meetings organized (possibly three depending on CPM-12 decision); and carry out intersessional work.
  - 3) *Consultation:* Organize consultation processes through the online comment system on draft specifications and draft standards to ensure all views are collected.
  - 4) *Adoption:* Ensure publication of specifications and standards in languages; organize Language Review Group (LRG) process for four languages as adopted ISPMs; manage seven co-publishing agreements according to the procedure; and revoke the versions of recently adopted standards for remaining languages.

## **C. Implementation Facilitation**

11. The major deliverables for the Implementation Facilitation in 2017 are the following (Appendix 1):
- 1) *Capacity Development (CD):* Produce technical manuals, guidelines, e-learning; organize and conduct side sessions, workshops and trainings; carry out internal workshops at CPM and through IPPC projects; formulate and implement projects on capacity development; and run the pilot project on surveillance.
  - 2) *Implementation Review and Support System (IRSS):* Make proposals of IPPC recommendations; promote desk studies by evaluation and feedback on desk studies and technical resources; and carry out M&E programme.
  - 3) *Dispute Avoidance and Settlement:* Develop a dispute avoidance and settlement eLearning module; promote in-country liaison and training; and conduct DASS eLearning module in six FAO languages.
  - 4) *Tools and Technologies:* Conduct training of PCE Facilitators; promote country application of PCE; develop PCE environmental module, IPPC implementation indicators, and monitoring and evaluation framework tool; and implement the pilot project on ePhyto.

## **III. Expected Outcomes**

12. *Overall Outcome:* Execution of the IPPC Secretariat Work Plan and Budget for 2017 is expected to further advance the IPPC mission and contribute to global efforts in food security, trade facilitation, environment protection and climate change with three main expected outputs.

13. *Outcome of Governance and Management:* This core activity will further enable contracting parties to participate in the IPPC processes, provide their inputs and receive feedback and support from the IPPC Secretariat. Acting as an open forum for discussion on plant health issues focused on standard setting and implementation of the Convention, the IPPC Secretariat is expected to enable smooth facilitation of the IPPC processes in order that Contracting parties make progress in the area of plant health.

14. *Outcome of Standard Setting:* This core activity is to develop harmonized international standards through a transparent and inclusive process meeting the needs of contracting parties. The IPPC is the only standard setting organization for plant health recognized by the World Trade Organization and IPPC standards provide a harmonized framework contributing to sustainable agriculture and food security, protection of the environment, and trade facilitation.

15. *Outcome of Implementation Facilitation:* This core activity is to further increase the ability and capacities of Contracting Parties and their National Plant Protection Organizations (NPPOs) to cope with plant health issues in an informed, inclusive and effective manner.

#### **IV. Budget Allocations**

16. The budget proposal for 2017 includes balanced resource allocations among the three pillars in order to ensure that standard setting work is continued, while implementation facilitation work is strengthened, and integration and support work is highlighted.

17. *FAO Regular Programme:* The allotment to the IPPC Secretariat for 2017 is USD 2.95 million, and the Secretariat work plan and budget for 2017 is allocated without any budget deficit for the regular programme (Appendix 1). Approximately 33% (USD 1 million) of the FAO Regular programme allotment is allocated to each of the three main activities of the Secretariat: Governance and Management, Standard Setting, and Implementation Facilitation. Total staff costs amount to 69% (USD 2.05 million) of the allotment, while operational costs are estimated at the level of 31% (USD 0.9 million) for 2017 (Appendix 2).

18. *IPPC Multi-donor Trust Fund:* The budget of USD 1.085 million (budget deficit 55%) is proposed which takes into account approximate 2016/2017 carry-over of USD 0.7 million and expected contributions of USD 0.4 million in 2017 (Appendix 1). Most of the IPPC Multi-donor trust fund resources (55% or USD 593 thousand) are allocated to the Governance and Management, while Standard Setting and Implementation facilitation pillar were allocated 12% (USD 127 thousand) and 33% (USD 365 thousand) of the total budget, respectively. (It should be noted that certain Standard setting activities are integral part of Governance and Management.) Total staff costs amount to 47% (USD 508 thousand), while operational costs are expected to reach 53% (USD 577 thousand) of the total budget (Appendix 2).

19. *IPPC Projects:* The budget of USD 1.7 million is going to be administered by the IPPC Secretariat. Each project has its own work plan and budget. Short description of each project, its budget, 2017 budget allocation, main donors and project duration can be seen in the Appendix 3.

20. *IPPC In-kind Support:* Expected in-kind contributions will amount to USD 0.62 million. In-kind contributions are provided to the Secretariat by Contracting parties as non-monetary contributions but are translated into dollar values for the purpose of proper budgeting and transparency (Appendix 2).

#### **V. Conclusions and Suggestions**

21. The IPPC Secretariat Work Plan and Budget for 2017 proposes targeted allocations and activities needed to drive the IPPC Secretariat to improved results, greater achievements and increased capacity for serving IPPC Contracting parties within foreseen financial and personnel parameters. Demand for the Secretariat services is rising and at the same time budget pressure is increasing. A reorganized, reshaped and regrouped Secretariat is envisaged to operate with high efficiency and optimal effectiveness within the resources available.

22. Due to the increased demand for its services, the IPPC Secretariat is faced with resource constraints, limiting its ability to be fully sustainable in financial terms. Efforts are being made by the CPM Bureau, FC and SPG to find the most appropriate mechanism that would enable the IPPC Secretariat to operate without continuous struggle for resources.

23. The proposed budget aims to realistically represent the work plan for 2017, and every single budget line aims to further improve products and services that the IPPC Secretariat provides to the Contracting parties. The IPPC Secretariat Work Plan and Budget for 2017 is expected to make one step forward in advancing the IPPC mission and promote organizational excellence towards the vision of “One IPPC”.

24. The CPM is invited to:

- 1) *approve* the IPPC Secretariat Work Plan and IPPC Multi-donor Trust Fund budget for 2017
- 2) *note* the IPPC Secretariat Regular programme budget for 2017.

## Appendix 1: The IPPC Secretariat Work Plan and Budget for 2017

(in thousand USD)

IPPC Mission - Protecting the world's plant resources from pests	Deliverables (Products and outputs)	Source of funding (in 000 USD)									Total (thousand USD)
		FAO Regular programme	IPPC Multi-donor TF - MTF /GLO/122/MUL	China - FAO/IPPC Project	MTF /GLO/688 /STF - ePhyto	MTF /GLO/527 /STF - PCE facilitator's training	GCP /GLO/391 /EC - EU Support to IRSS	GCP /GLO/551 /SWI - Swiss Support for IRSS	GCP /GLO/725 /EC - New project with EU	In-kind resources expressed in monetary values

Core Activities											
<b>1.2.3. Communication and Advocacy</b>											-
	2017 IPPC Secretariat Communications Work Plan is developed, with implementation overseen, and draft 2018 IPPC Secretariat Communications Work Plan is prepared	25	-	-	-	-	-	-	-	-	25
	Planning, coordination and implementation of IPPC awareness raising activities										
	IPPC news feeds, IPPC and FAO social media communications, expanded use of FAO news channels and services, five revised or new advocacy documents, one new factsheet and 2016 Annual Report produced and printed or posted online with ISBN code, and three IPPC seminars per annum	25	70	-	-	-	-	-	-	-	95
<b>1.2.4. International Cooperation</b>											-
	Provide coordination and integration of partnerships and liaison programme.										
	Work with Secretariat staff to ensure new partnership with CABI, WCO and re-new CBD partnership; provided support for liaison activities for other Secretariat members; and make travel for 5-8 missions	10	-	-	-	-	-	-	-	-	10
	Organize and conduct side sessions, workshops and trainings										
	Promotional material for IPPC : CBD, SPS, WTO, STDF, RPPOs, NPPOs, FAO Reg PPOs, FAO Units (EST, AGP, EMPRES, AGDF, etc.)	5	-	-	-	-	-	-	-	-	5
<b>1.2.5. IPPC Network</b>											-
	Regional workshops										
	Travel organized well and on time	-	-	80	-	-	-	-	84	-	164
	Technical Consultation among Regional Plant Protection Organizations (TC-RPPO)										
	Travel organized well and on time	5	-	-	-	-	-	-	-	-	5
<b>1.2.6. Resource Mobilization</b>											-
	Secretariat staff travel										
	Travel organized well and on time	10	-	-	-	-	-	-	-	-	10
<b>1.2.7. Internal Management</b>											-
	Operational management; planning and finance

Appendix 2

## Appendix 3 - Short Description of the IPPC Projects for 2017

<b>Project title: Special International Plant Protection Convention Trust Fund (IPPC Multi-donor trust fund)</b>	
<b>Donors:</b> Australia, Canada, Ireland, France, Japan, Netherlands, New Zealand, Republic of Korea, South Africa, Sweden, Switzerland, USA	
<b>Project symbol:</b> MTF /GLO/122/MUL	<b>Total budget:</b> USD 4,578,426
<b>Project duration:</b> 01 Jan 2004 - 31 Dec 2017	<b>2017 budget allocation:</b> USD 1,085,000 (estimated – dependent on voluntary contributions)
<p><b>Short project description:</b></p> <p>The project is supporting the overall Secretariat work programme including the organization of workshops on plant health risk analysis, drafting of standards on phytosanitary measures related to pest risk analysis, pest risk assessment and management, plant quarantine, phytosanitary measures to use in international trade, establishment of directives for pest eradication programmes, how to develop phytosanitary certificates, the methods of irradiation as phytosanitary measures, guidelines to establish phytosanitary import regulation systems, attendance of developing country members of the Commission at IPPC meetings, information exchange, regional workshops on draft standards and implementation, development and guidance for countries to use in the evaluation of institutional and regulatory aspects of national phytosanitary systems, encouraging individual members to utilize Phytosanitary Capacity Evaluation (PCE) and formulate national Phytosanitary plans. All the techniques developed are applied in the countries which are members of the International Plant Protection Convention.</p>	

<b>Project title: Strengthening the capacity of developing contracting parties to implement the International Plant Protection Convention (IPPC)</b>	
<b>Donor:</b> China	
<b>Project symbol:</b> not yet assigned	<b>Total budget:</b> USD 2,000,000
<b>Project duration:</b> 2017-2020	<b>2017 budget allocation:</b> USD 500,000
<p><b>Short project description:</b></p> <p>The proposed project is expected to contribute to an improvement in food security and agricultural trade in participating countries. It is expected that through project interventions there should be an increased capacity of developing countries to implement the IPPC and its standards.</p> <p>Directly the project aims to deliver the following:</p> <p>Output 1: Capacity of 226 developing country representatives from over 100 countries to understand the IPPC improved;</p> <p>Output 2: Inter-regional cooperation among 40 developing countries on the Chinese “One Belt, One Road” strategy enhanced;</p> <p>Output 3: Implementation of IPPC programmes enhanced through technical partnership with China’s NPPO;</p> <p>Output 4: Awareness of the IPPC increased at global, regional and national levels.</p>	

<b>Project title: ePhyto - Global electronic trade facilitation: Enhancing safe trade in plants and plant products</b>	
<b>Donors:</b> STDF, USA/NAPPO, Canada	
<b>Project symbol:</b> MTF /GLO/688/STF	<b>Total budget:</b> USD 1,728,000
<b>Project duration:</b> 15 Dec 2016 - 14 Dec 2019	<b>2017 budget allocation:</b> USD 600,000
<p><b>Short project description:</b></p> <p>The project aims to provide developing countries with the ability to use a simple generic web-based system designed with the capability to produce, send and receive electronic phytosanitary certificates (ePhyto). The project is expected to establish a harmonised exchange tool for all countries that should eliminate the cost and complexity of countries needing to develop and implement exchange protocols with trading partners on a country by country basis. This will make it easier for countries (especially those with limited resources) to start transmitting electronic phytosanitary certificates for their export consignments and to receive certificates for imported consignments. At a global level, electronic certification systems may also facilitate integration of phytosanitary processes with other electronic border systems. Trade logistics systems will also be improved as trade flows become more predictable and efficient. Improved efficiencies in the trading environment also support international objectives in ensuring food security.</p>	

<b>Project title: Training of Phytosanitary Capacity Evaluation (PCE) Facilitators</b>	
<b>Project symbol:</b> MTF /GLO/527/STF	<b>Total budget:</b> USD 734,088
<b>Project duration:</b> 01 Apr 2014 - 30 Sep 2017	<b>2017 budget allocation:</b> USD 300,000
<p><b>Short project description:</b></p> <p>This project seeks to improve national-level coordination and coherence of plant protection programmes through improved needs assessment and action planning. A pool of individuals are trained to facilitate phytosanitary needs assessment and action planning processes using the IPPC phytosanitary capacity evaluation (PCE) tool. The PCE is a management tool designed by the International Plant Protection Convention (IPPC) Secretariat.</p> <p>The tool assists a country to assess its capacities in existing or planned phytosanitary systems and identify and prioritise actions to be taken to correct gaps. The PCE is a platform for strategic planning to prioritise activities and resources to fill gaps and enhance the effectiveness of the country's overall phytosanitary system. The outcome of the PCE process is a national phytosanitary action plan. The PCE tool provides a consistent basis to assess baselines and outcomes of capacity development actions whether they are self-applied by the NPPO or in cooperation with third parties (through projects for example).</p>	

<b>Project title: Funding support for the IPPC - Implementation Review and Support System (IRSS)</b>	
<b>Donor:</b> European Commission	
<b>Project symbol:</b> GCP /GLO/391/EC	<b>Total budget:</b> USD 794,702
<b>Project duration:</b> 01 Apr 2014 - 31 Mar 2017	<b>2017 budget allocation:</b> USD 130,000
<p><b>Short project description:</b></p> <p>The project undertakes activities that evaluate and identify contracting parties' plant protection challenges and best practices. These activities generate national, regional and global information about implementation of the Convention, international standards for phytosanitary measures (ISPMs) and emerging issues in plant health. All information on IRSS reports, studies, surveys, workshops and symposiums are publicly available on <a href="http://ippc.int">ippc.int</a> IRSS page. These activities feed into the Triennial Implementation Review Report which summarizes the situation of the implementation of the Convention and its standards by contracting parties.</p>	
<b>Project title: Support to the IPPC Implementation Review and Support System (IRSS) programme of work</b>	

<b>Donor:</b> Switzerland	
<b>Project symbol:</b> GCP /GLO/551/SWI	<b>Total budget:</b> USD 339,751
<b>Project duration:</b> 01 Jul 2014 - 30 Apr 2017	<b>2017 budget allocation:</b> USD 110,000
<b>Short project description:</b> Please see the description above on IRSS activities.	

<b>Project title: Support for implementation of the International Plant Protection Convention (IPPC)</b>	
<b>Donor:</b> European Commission	
<b>Project symbol:</b> GCP /GLO/725/EC	<b>Total budget:</b> USD 989,011
<b>Project duration:</b> 01 Jan 2017 - 31 Dec 2019	<b>2017 budget allocation:</b> USD 320,000
<b>Short project description:</b> The overarching objective of the project is to contribute to efficient and inclusive trade by increasing the capacity of contracting parties to implement the IPPC and its ISPMs. In the multi-lateral trading system the greater bulk of traded commodities are plant based. A majority of developing contracting parties rely on the trade of bulk or raw products for their economic development. Heading towards 2020 the IPPC has agreed upon one general goal – to increase the overall capacity of the contracting parties and the IPPC Secretariat to implement the Convention. This work will be undertaken through standards setting, implementation facilitation and communication and partnership, with each year leading up to 2020 focusing on specific plant health themes: food security, trade facilitation, environmental protection, capacity development and the culminating International Year of Plant Health (IYPH). Through the EC’s support in implementation of the Convention and ISPMs, contracting parties’ participate in implementation and ISPM development, IPPC’s goal becomes more achievable. The project is therefore directed to enable developing contracting parties to have an improved ability to implement the IPPC and key ISPMs to enable safe trade and dispute avoidance.
