Implementation Review and Support System (IRSS)

Questionnaire: ISPM 13 Guidelines for the notification of non-compliance and emergency action

The Subsidiary Body on Dispute Settlement (SBDS) requested IRSS support for an initiative it is conducting in reviewing its role and functions. The SBDS initiative is being conducted in response to issues raised at CPM6. In this regard, the SBDS needs more information to understand NPPO processes to address issues on implementation of ISPM13, dispute settlement and analysis of the implementation of non-compliance and emergency actions of NPPOs. These issues are seen as logical precursors to any dispute actions by contracting parties. The Bureau agreed that the IRSS would formally review and identify challenges related to ISPM13 implementation and provide an overall baseline analysis report to the IPPC SBDS by July 2012.

As a way to assist in conducting this review you are invited to complete this 6 part questionnaire.
