International Plant Protection Convention call for nominations of authors for diagnostic protocols

Dear Sir/Madam,

Nominations for authors are being solicited by the Secretariat of the International Plant Protection Convention (IPPC) for four IPPC diagnostic protocols on:

- *Liberibacter* spp. / *Liberobacter* spp. on *Citrus* spp. (2004-010)
- *Liberibacter solanacearum* (2013-001)
- *Conotrachelus nenuphar* (2013-002)
- *Anguina* spp. (2013-003)

Details are outlined below.

Nominations for authors of the IPPC diagnostic protocol for: *Liberibacter* spp. / *Liberobacter* spp. on *Citrus* spp. (2004-010), *Liberibacter solanacearum* (2013-001), *Conotrachelus nenuphar* (2013-002), *Anguina* spp. (2013-003)

The IPPC Secretariat is soliciting nominations for authors of the diagnostic protocol for *Liberibacter* spp. / *Liberobacter* spp. on *Citrus* spp., *Liberibacter solanacearum*, *Conotrachelus nenuphar*, *Anguina* spp. under the disciplines bacteriology, entomology and nematodes. The authors selected for the *Liberibacter* spp. / *Liberobacter* spp. on *Citrus* spp. diagnostic protocol (DP) will complete the DP drafting group currently composed of: Ms Rita Lanfranchi (Argentina) as lead author. Authors will work in liaison with the discipline lead and member of the Technical Panel on Diagnostic Protocols (TPDP) for the respective area to develop the draft protocol as annex to ISPM 27:2006 (*Diagnostic Protocols for Regulated Pests*).

Curriculum Vitae (CV) of experts nominated as authors should outline the specific diagnostic expertise with the pest that the nomination is applying for. Technical and scientific expertise with the pest, especially diagnostic expertise, is considered a core requirement. Additional expertise that would be helpful is:

- taxonomy and molecular diagnostics
- practical experience related to the pest (detection, identification, isolation etc.)
- quarantine diagnostic protocol expertise
- drafting of diagnostic protocols (such as regional diagnostic protocols)
- development of novel diagnostic methods
- experience using diagnostic protocols for diagnosis of regulated pests.

Nominees for authorship of diagnostic protocols should also be able to demonstrate the ability to work primarily through e-mail discussions in English (as it is not anticipated that authors will be required to meet in person) and that appropriate time to dedicate to drafting the

diagnostic protocol via e-mail will be available. Several experts may be selected to compose the DP drafting groups.

Selection procedure

All nominations will be considered, although it is encouraged that nominations be submitted through national plant protection organizations (NPPOs) or regional plant protection organizations (RPPOs). Nominations should be supported by the submitting organization and self nominations should be supported by an accompanying letter from a government authority. All nominations should include the nominee's CV and a signed statement of commitment form. The nominations will be reviewed and authors will be selected based on the experience demonstrated in the CV.

The selected authors will be contacted by the Secretariat and TPDP member in charge of the diagnostic protocol once their participation has been confirmed.

Nominees for the protocols should have agreed to their nominations, be available for drafting the diagnostic protocol via e-mail and be able to allocate the appropriate time to the task prior to their names being submitted. In addition, the attached *Statement of commitment* should be completed by the nominee and submitted with the nomination.

Nominations submissions

To nominate authors, please consider the attached documents and submit the following information and documentation (by e-mail, with the name of the nominating country and “**call for authors – August 2013**” in the subject line of the e-mail message) for each nominee:

- nominee name, address, country, phone number, fax number and valid e-mail address
- the name of the diagnostic protocol is proposed the nomination
- electronic copy of the nominee's CV (preferably as a word processing file such as MS Word) with the file named as follows:
COUNTRY_Firstname_SURNAME_*DiagnosticProtocolNomination**
**please write the pest name of the diagnostic protocol*
- signed statement of commitment (preferably as a scanned image file such as TIF) with the file named as follows: COUNTRY_Firstname_SURNAME_committment.

Submissions should be sent to the IPPC Secretariat by e-mail (ippc@fao.org) no later than **27 September 2013**.

Yours sincerely,

Brent Larson
Standards Officer
Secretariat of the International Plant Protection Convention

Enclosures:

1. IPPC statement of commitment (English, French, Spanish)
2. TPDP Working Procedures
3. ISPM 27:2006 (*Diagnostic protocols for regulated pests*)
